LONGEVITY

OPTIMAL FEED EFFICIENCY

SUPERIOR CARCASS QUALITY

“We have been utilizing Speckle Park bulls for over 15 years and the quality of our calves just keeps improving. Speckle Park cows are easy-keeping, docile and hard-working, putting everything into their calves. They are easy calving and the calves are up sucking within 5-10 minutes. We’ve enjoyed working with this breed a great deal and have no regrets about switching our herd from the mainstream breeds we used to run.”
