nimals	s Regnum	Det	1	lues(Applied C Birth Date		Steer	Wng Date	wwT 750	WMGN	HIP	Hip Date	DamWT	DamWT Date	DamBCS	Disp	Disp Date	

Step 7: Using the default values boxes at the top of the table you can enter in the Wng Date, WMGN (Weight management group), Hip Date, and Dam WT dates which will auto-fill for all entries. The following information can be recorded.

Indicate if the animal has been steered

Wng Date: this is the date you weighed the calves

WT: in lbs

Mgmt code: Here you will enter the number 1 for all calves if managed the same way. For groups of calves managed differently such as creep fed you would enter a different number. You would use as many numbres as necessary for the number of management groups you have.

HIP: Here you can record Hip height of the animal

HIP Date: Record the date the hip heights were taken

Dam WT: Enter in the mature cow weight of the dam at the time of weaning

Dam WT Date: Enter the date the cows were weighed

Dam BCS: Here you can record the dams body condition score at the time of weaning if you want Disp & Disp date: Here you enter in disposal codes and disposal date if necessary. Please reference the disposal code list if your animal is no longer active.

Hit SAVE once you have completed the data entry.
